PEOPLE
KNOWLEDGE
OPPORTUNITY
STRONGER FUTURES

SEEDS AND SIGNAL

People's knowledge stronger communities.

Digital tools to support preparedness, learning, local capability and cultural heritage — designed with communities, for communities.

Local voices.
Local knowledge.
Brighter futures.

COMMUNITY VOICE

People at the centre.

Communities share needs, ideas and local knowledge in a safe and respectful way.

LEARNING AND CAPABILITY

Opportunity that lasts.

Digital tools support education, skills, local enterprise and maintenance knowledge.

BETTER DECISIONS

From insights to action.

Information helps partners understand needs, track assets and plan more effectively.

CULTURE AND IDENTITY

Stories that endure.

Signal helps communities safeguard stories, language and cultural heritage for future generations.

"Shelter may protect the body, but story, music, language and memory help protect identity."

Displacement does not remove capability.

People, knowledge and opportunity build stronger futures.

DS3-Global

ADAPT TODAY.
BUILD TOMORROW.

A digital layer for stronger communities

From information to opportunity.

COMMUNITIES
CAPABILITY
SELF-RELIANCE
LASTING IMPACT

SEEDS is DS3's digital layer, with Signal as the community voice of memory. Together they support preparedness, learning, local capability and better decision-making — with communities in control of their information.

THE SEEDS OUTCOME LOOP

From community needs to lasting impact.

MINIMUM DATA. MAXIMUM USEFULNESS. HUMAN DIGNITY ALWAYS.

SIGNAL

A voice for memory.

- Stories and experiences
- Photos, video and audio
- Music, language and culture
- Local knowledge and skills
- Community choice and control

"A safe and respectful digital home for community stories."

POSSIBLE APPLICATIONS

- Emergency response and recovery
- Health and community services
- Education and learning
- Local skills and enterprise
- Culture, inclusion and social cohesion
- Program monitoring and evidence

BUILT WITH PARTNERS

- ✓ Communities and local organisations
- ✓ Development and research partners
- ✓ Government and municipal programs
- ✓ Technology and service providers

Let's explore what's possible together.

We welcome discussions on pilot applications, research partnerships and program opportunities.
