HOMES
OPPORTUNITY
STRONGER COMMUNITIES
BRIGHTER FUTURES

HOUSING AND LOCAL SERVICES

Homes and communities that last.

Better homes.
Stronger communities.
Lasting impact.

Durable, adaptable and locally supported housing solutions for people, communities and the regions they live in.

A RANGE OF SOLUTIONS For different needs.

Sentinel+ and Citadel+ provide complementary pathways for durable accommodation and community buildings.

INTEGRATED COMMUNITIES More than just housing.

Homes can be part of connected environments with WASH, energy, health, learning and local services.

LOCAL OPPORTUNITY Skills, jobs and capability.

Local manufacture, installation, maintenance and supply chains create opportunities for local people and enterprise.

LONGER-TERM VALUE Built to perform.

Designed for durability, repair and future use, helping reduce replacement costs and support more resilient communities.

Stronger housing. Stronger services. Stronger communities.

A stronger tomorrow for people and communities.
Concept application | Philippines

DS3-Global

STRUCTURES | SYSTEMS | SERVICES

ADAPT TODAY.
BUILD TOMORROW.

From housing to thriving communities

Practical solutions. Real opportunities.

LOCAL CAPABILITY
LASTING IMPACT

DS3 housing solutions are designed to meet real needs — from individual homes to larger community developments — with the flexibility to adapt, expand and integrate essential services.

CommUnity Shelter+

Rapidly deployable soft-cover infrastructure.

- Emergency and transitional use
- Flexible sizes and configurations
- Compatible with services and Pods
- Designed for reuse and redeployment

Sentinel+

Durable modular infrastructure.

- Accommodation and community facilities
- Configurable and expandable
- Integrates with WASH, energy and other services
- Designed for long-term use

Citadel+

Permanent modular infrastructure.

- Housing, workplaces and services
- 1–4 storeys (and beyond)
- Fast, efficient construction
- Lower labour requirement
- Designed for local materials over time

Different starting points. A shared design discipline. Communities that can grow over time.

POSSIBLE APPLICATIONS

Family housing

Community facilities

Local government

Health and care

Learning spaces

WASH infrastructure

Green and climate-resilient development

Local manufacture and maintenance

Regional development

Remote and off-grid communities

BUILT WITH PARTNERS

- ✓ Government and local authorities
- ✓ Development institutions
- ✓ Engineering and construction partners
- ✓ Local suppliers and manufacturers
- ✓ Community organisations

Let's explore a housing application together.

We welcome discussions on your housing, community or regional development needs and how DS3 can support your objectives.
