

EDUCATION POD

Space to learn. Create. Connect. Reset.

Children
today.
Brighter
tomorrows.

In emergencies, displacement settings and underserved communities, children need more than shelter. They need safe, welcoming places where learning can continue, creativity can flourish and quieter moments are possible.

LEARN

Learning and discovery

Reading, storytelling, drawing, guided activities, language, digital learning and small-group education.

CREATE & PLAY

Activity and imagination

Art, music, games, movement, collaborative projects and age-appropriate creative activities.

QUIET & REFLECT

Calmer space when needed

Reading, rest, sensory activities, individual work and quiet reflection.

SAFE BY DESIGN

A secure, inclusive and supportive environment for every child.

Clear sightlines

Supervised access

Child-friendly surfaces

Controlled entry and exit

Ventilation and lighting

Inclusive access options

Adaptable local-language signage

Space for carers and facilitators

KEEPING LEARNING AND CREATIVITY WITHIN REACH.

Learning | Creativity | Safety | Wellbeing | Community

ADAPTABLE TODAY.
STRONGER
COMMUNITIES
TOMORROW.

LEARNING SPACES THAT CAN START FAST — AND STAY AS NEEDS CHANGE.

Education Pod is a flexible function rather than one fixed building. It can be configured in CommUnity Shelter+ for rapid, reusable deployment or in Sentinel+ for more durable learning and community infrastructure.

COMMUNITY SHELTER+ EDUCATION POD

Rapid, reusable learning space

- Disaster response
- Displacement and temporary settlements
- Mobile learning and activity spaces
Deploy quickly. Configure locally. Redeploy as needs change.
- Temporary school capacity
- Community recovery programs

SENTINEL+ EDUCATION POD

Durable learning and community infrastructure

- Longer-term settlements
- Rural and remote communities
- School extensions and learning centres
A durable pathway for learning spaces that need to stay.
- Care and support facilities
- Community education hubs

THE DS3 EDUCATION POD FRAMEWORK

Safe by design. Flexible by use. Adaptable over time.

1 CAPABILITY

Spaces designed around the activity

- Reading
- Creative activity
- Group work
- Carer support
- Teaching
- Digital learning
- Quiet study

2 APPLICATION

From emergency continuity to community learning

Emergency Learning

Continuity after disaster or displacement

Camp & Settlement

Structured spaces close to children and families

Rural & Remote

Additional capacity where infrastructure is limited

Care & Protection

Learning beside orphanages, clinics or protected settings

Community Learning

Libraries, youth programs and after-school activities

3 PERFORMANCE & LIFECYCLE

Designed to adapt

CommUnity Shelter+

DEPLOY → USE → ADAPT → MAINTAIN → RECONFIGURE → REDEPLOY

Sentinel+

INSTALL → USE → CONNECT → EXPAND → ADAPT

Shared principle

Maintainable components, adaptable layouts and local delivery pathways extend usefulness as needs change.

4 DS3 ADVANTAGE

The space can change as the community changes

TILE + GRID

CLASSROOM

→ **One architecture.**

LIBRARY

→ Different configurations can share familiar dimensions, connections and delivery logic.

TRAINING ROOM

→

DIGITAL LEARNING

→

CARE / SUPPORT

→

OPTIONAL EDUCATION & ACTIVITY KIT

Books • local-language materials • art supplies • puzzles • cooperative games • music & storytelling • teaching aids • wellbeing activities • disaster-preparedness learning

Content can be adapted with local educators, communities and delivery partners.

Supports learning and child-focused programming; can complement formal education facilities and programs according to local requirements.

**SHELTER MAY PROTECT THE BODY,
BUT LEARNING, CREATIVITY AND CONNECTION HELP PROTECT CHILDHOOD.**

Let's identify one Education Pod requirement worth scoping together.
